Wes Novack
SchoolAI

Dear Wes Novack,

I really appreciated the time we took to talk on Friday.

I'd be a great asset to the team at SchoolAI.

My experience leading DevOps teams has enabled my former employers to streamline their development workflows and foster more efficient, reliable software delivery.

I have a proven track record of helping companies adopt modern infrastructure automation practices, resulting in improved developer experiences, more consistent deployments, and accelerated release cycles.

In addition to my technical skills I do have a considerable background in technical training and have a passion for course ware and education.

I'm looking forward to seeing everyone at the office on Monday

Sincerely,

Derek Carter
